Aditya Pathak

Computer Science & Engineering Student | Data Science & AI Developer

Email: pathakaditya6266@gmail.com LinkedIn: linkedin.com GitHub: github.com

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering 2023 – 2027
Specialization in Data Science

TECHNICAL SKILLS

Languages:	C++, Python, JavaScript
AI & LLM Tools:	Large Language Models (LLMs), LangChain, LangGraph, RAG
Web Development:	MERN Stack (MongoDB, Express.js, React.js, Node.js)
Databases:	MongoDB, PostgreSQL, Vector Databases (Pinecone / FAISS / Chroma)
Cloud & DevOps:	AWS Cloud Deployment
Core Knowledge:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

KEY PROJECTS

Autonomous AI Workflow Agent

LangChain | LangGraph | Vector DB | AWS

- Architected an AI agent utilizing **LangChain** and **LangGraph** to automate complex dynamic decision-making processes.
- Implemented contextual search using **Vector Databases** for Retrieval-Augmented Generation (RAG) pipelines.
- Configured cloud hosting and scalable API infrastructure on **AWS**.

Full-Stack MERN Application

MongoDB | Express | React | Node.js

- Designed and deployed a modern full-stack web application with user authentication, custom REST APIs, and state management.
- Integrated persistent relational and document-based data management using **MongoDB** and **PostgreSQL**.
- Optimized frontend and backend interaction to deliver responsive performance and robust data synchronization.

CORE COMPETENCIES

- Strong problem-solving mindset based on solid Data Structures & Algorithms (DSA) proficiency in C++ and Python.
- End-to-end expertise in designing data workflows, building web platforms, and deploying generative AI solutions to the cloud.
- A collaborative developer equipped with modern web standards, database architecture, and AI application engineering practices.
